WORLD'S-1903-FAIR.

term expires April 26, 1966.

MISSOURI'S BUILDING

It is proof of quick and effective work that the Executive Board of the Missouri Commission now has ready its plans for the State building and exhibit at the World's Fair and that it waits task of construction.

The Missouri building and exhibit should logically surpass those of any other State in the Union. The appropriation made by the State Legislature ertaken its duties contains every promise of admirable achievement. The people of Missouri will be profoundly interested in the work to be done by this Commission

They will also earnestly hope that the State Commission will see proper to make of the State building at the World's Fair a permanent monument fittingly commemorating the Louisiana Purchase centennial celebration and testifying to the natural wealth, prosperity and progressiveness of the State of Missouri. The benefit to Missouri would be great and lasting. The cost of permanency would be only a reasonable part of the appropriation made by the State. The resultant good would far outweigh this cost. An exceptional opportunity which is also very much in the nature of a duty is now confronted by the Missouri World's Fair Commission.

AWAITING THE PROOF.

In its mud-throwing effort to create the impression that there has been "Democratic crookedness in managing the State finances" the Globe-Democrat continues to advance a varied assortment of vague charges which it has apparently no intention of attempting to prove by the records kept at Jefferson

The situation confronting the Globe-Democrat is simple. That newspaper began its campaign of slander by bewailing the impossibility of access to the books of the State in order to obtain evidence of the truth of its charges. Promptly upon the voicing of this complaint Governor Dockery notified the Globe that the State's books were open for inspection. He invited the Globe to inspect them. The Globe as promptly refused. It preferred not to convict itself.

Until this remarkable newspaper sees fit to accept Governor Dockery's invitation and to make public the result of an expert examination of the books of Mis souri it will be impossible for the people of this State to seriously consider the ness. The Globe itself has declared that an inspection of the books will reveal the truth of its charges. The people have the right to know the truth. If the Globe is in possession of actual knowledge of Democratic crookedness it is the duty of that paper to specifically state its facts and then proceed to furnish the evidence from the opened books

If Republicans wish to know one of the chief causes of a reduced party vote latter-day theory that a man, after passin St. Louis at the last two elections, ing the half-century or threescore mark, the straightforward article written by George V. He has gained time who dared to face his companions much in this world's goods, he has oconly the allotment of space to begin the after such "traiterous" action. He was

politically the outcast of his race.

From that time the progress of the Democratic negro has been beset with difficulties until within the last few years. Just another way of backing N. Y. to be able to deliver negro votes on demand.

But, as Mr. Vashon points out, those days have passed. Beginning with the recognition of a negro by a former Recorder of Deeds in 1896, the number of negro Democrats has steadily grown. It is estimated that fully 8,000 negroes voted the Democratic ticket last fall and this spring. This is about three-fourths of the total colored vote in this city.

There are a number of negro Demo cratic organizations which did effective work in the two last campaigns. The members voted intelligently. As Mr. Vashon says, "these negroes opposed the Republican party because of contempt for its assumption of ownership and re- lect a quarter section of land an eighth sentment of its fooling their fathers." They are tired of being considered chat- the townsite of Lawton. tels. The overseer's whip has lost its terror for many of the old slaves, while the younger generation is thinking for itself.

Eight thousand negro votes in either the fall or spring elections, if transferred from the Democratic to the Republican column, would have turned the tide from Democratic success to Republican victory. No claims of fraud are set up on their behalf. Their conversion is a natural turning from the days when Republican managers had nothing to count upon but unswerving lovalty.

There is every evidence that the 8,000 negroes who voted the Democratic ticket in the spring election will continue to do so. They have put forward capable and honest men for preferment. These men have been liberally recognized by the Democratic organization. It is an uplift that the negro would never have received from the Republic-

It is hard to surmise just what certain members of the House of Delegates mean when they declare that they are in favor of advancing every measure Globe's charges of Democratic crooked- that will make for the well-being of St. Louis.

SOME GOOD POINTS IN A SUMMER OPERA-NOTES.

Edmond Audran's standard comic opera, "The Mascot," is being sung and acted at the Delmar this week in a manner that revives the best traditions of the celebrated ork. When first essayed by the Grayson-Norcross company at the Boston Gayety Theater, in the spring of ISSL, it immedi-ately took rank as the best comic opera emanation of the decade, and despite the fact that frequent repetition has hackneyed many of its beauties, it still maintains itself

as a work that has given the impetus to more endeavor of a similar kind than any other with which it can be classed.

The new principals of the Delmar opera company, Maude Lillian Berri and Frank Moulan, could have had no better medium for their favorable introduction to a new and larger clienters than this celebrated and larger clientage than this celebrated opera, which, in music, story and incidental diversion, so readily meets all the require-ments of al fresco amusement.

and larger clientage than this celebrated opera, which, in music, story and incidental diversion, so readily meets all the requirements of all fresco amusement.

Moulan is increasing his reputation as an operatic comedian with his masterly presentation of the grotesque Lorenzo XVII, Prince of Primbino, in hard luck, and Maude Lilian Berri sings the soulful lays of Bettina most charmingly. Agnes Paul, late of "The Princess Chic," now the Princess Flametta, wears beautiful costumes, acts with her accustomed grace and sings her music intelligently.

If flaws are to be picked in the performance, a few large ones may be found in the orchestra, which, for the first time this season, seems to have gotten beyond Director Dariing's authority. Last night Dariing's "fiddlers three" were like a lot of bad Indians—they got so far off their musical reservation that it looked as if Jannopoulo's watchmen had better be cailed in to bring them back. This, of course, only in a Pickwickianly musical sense. Too much fiddling in the summertime will cause even the indefatigable Sig. Parisi to nod at times.
